

Quality Windows And Doors.
Great Service. Exceptional Value.

As A Matter Of Fact,
Our Windows And
Doors **Are** The Best.

Since 1985 North Star has been an industry leader in the manufacture of attractive and energy-efficient vinyl windows and patio doors. Whether you're building a new home or upgrading to today's standards, North Star has an extensive range of quality, energy-efficient and full-featured windows that are not only beautiful, but offer exceptional value.

Why We are the Best

North Star has earned a reputation for manufacturing and distributing attractive, high-quality, energy efficient vinyl windows and doors.

North Star's manufacturing system ensures all our vinyl windows and doors are built to meet or exceed industry standards. Our products are tested and certified by Canadian Standards Association and comply with American Architectural Manufacturers Association (AAMA) standards. We're so confident in our windows and doors that we back them with a transferable, limited lifetime warranty.

When you buy North Star products, you know you're getting the best quality and value for your investment.

The strong relationship we have with our various manufacturing partners has helped us maintain our reputation for leadership, innovation and the production of windows and doors of impeccable quality.

Colors

North Star AAMA-certified extrusions come in seven laminated colors – white, ivory, hickory, chestnut brown, cocoa, sable and sandalwood. These UV-resistant acrylic overlays, with an embossed wood grain texture, will remain attractive for years to come.

And you can enjoy the warmth of an oak interior finish with our Natural and Canadian Oak interior finishes. Made from a durable PVC laminate with an acrylic overlay, they're virtually indistinguishable from real wood.

Exterior Colours

Interior Finishes

Due to variations in the printing process, the colors shown may not be exact. Ask your North Star dealer to show you an actual color sample. E.&O.E. Specifications are subject to change without notice.

When you purchase North Star windows and doors, you get a high-quality and low-maintenance product with a limited lifetime warranty.

Made of durable vinyl, they never need to be painted. And because they exceed industry standards for energy efficiency, they are proven to reduce your energy costs while they increase the value of your home.

Hopper & Awning Windows

Hopper and awning windows improve airflow, and protect your home from the elements, making them an excellent solution for basements, near walkways or above doors and other windows for increased ventilation and light.

Casement Windows

Casement windows offer contemporary styling and convenience. They open and close easily with the simple turn of a handle, and provide clean sightlines with an unobstructed view.

Durable multi-point locking hardware comes standard.

Picture Windows

The picture window's simplicity makes it the most versatile of our line. It lets in light, but not the elements and offers superior energy efficiency plus an unobstructed view.

Horizontal Slider Windows

Offering a large, unobstructed view, our sliders operate with finger-tip ease. Sashes of our single and double lift sliders and three-lite end vent sliders lift out for cleaning, while double tilt slider windows tilt in for easy roomside cleaning.

Single- & Double-Hung Tilt Windows

Single- and double-hung tilt windows deliver traditional beauty with improved security, lower maintenance and increased energy efficiency. Featuring cam locks and recessed finger latches, the sashes slide and tilt in for easy, safe cleaning.

Bow Windows

Almost any opening can become an instant greenhouse or relaxing nook with a striking bow window. Comprised of any combination of four to five individual windows, both insulated and non-insulated head and seat options are available.

Bay Windows

Few styles outshine the bay for beautifying a home's exterior and flooding natural light into interior spaces. Projecting outward from a wall at 30 or 45 degree angles to create a cozy alcove, any combination of windows can be used to create a beautiful bay window. Head and seat options can be insulated or non-insulated.

Custom Shape Windows

Make your house not only a home but a work of art by adding custom shape picture or single-hung windows. Designed just for you to enhance the style and architectural detailing of your home, custom shapes add a unique artistic element to your living space.

Standard Features For All Of Our Energy-Efficient Quality Windows

- 1. Super Spacer** – Super Spacer S Class construction between glass panes resists condensation, reduces noise and boosts insulation values by up to 30%.
- 2. Low-E** – Standard in every North Star window, our Energy Advantage Low-E glass minimizes heat loss in winter and heat gain during summer (triple glazing option shown on casement).
- 3. Fusion Welded** – The corners on all North Star frames and sashes are fusion welded for added strength and a perfect seal.
- 4. Energy Efficient Extrusions** – North Star's vinyl extrusions save energy – and money – and resist warping, cracking and peeling.

EZ-Screen

Slider, Single- And Double-Hung Window Features

Screen Pulls – Durable pull tabs take the struggle out of removing window screens. These tabs are available in colors that match North Star's windows.

Recessed Finger Latch – A simple, concealed latching system that is easy to operate, yet offers superior security.

Casement, Awning & Picture Window Features

Contoured Glazing Stop – Interior contoured glazing stop with miter-cut corners for clean lines that complement any room.

Exterior Bevelled Frames – Attractive exterior frames feature a traditional looking bevelled profile.

EZ-Screen – North Star's innovative EZ-Screen comes standard in all Casement and Awning windows. Featuring a completely hidden retention system, EZ-Screen has smooth edges that won't snag on draperies and is incredibly easy to use – just push-down and pull-out!

* One of the characteristics of Low-E glass is a blue haze that may be seen under certain lighting conditions. This haze is actually light scattered by the coating and is completely normal.

Glass

To increase the efficiency of our windows and doors, North Star uses energy-saving Low-E glass that features a near-invisible coating that reduces the amount of heat lost while letting in light.

And the Super Spacer® technology in every window we make resists condensation, boosts R-values and reduces noise.

Optional self-cleaning glass features a unique treatment that allows the glass to break down organic dirt that collects on the surface. Dirt washes away with the next rain. Pilkington Activ™ Self-Cleaning Glass is available in every North Star window.

Other glass options include

- Argon and Krypton gas filled
- Bronze- and gray-tint glass
- Obscure glass
- Tempered glass
- Triple glazing

Grilles

The beauty of your North Star windows can be enhanced through traditional or contemporary grilles, available in three profiles: 1/4" square, 3/8" flat and 3/4" contour.

1/4 INCH

1/4 X 5/8 INCH

CONTOUR

All grilles are available in colors to match our window exteriors, as well as metallic pewter and brass.

Hardware

Hardware and locks used in North Star's windows are easy to use, secure and come with a lifetime warranty. Optional self-locking hardware provides homeowners even greater security and peace of mind, and optional fold-down handles on our casement and awning windows lie flatter than traditional handles and allow window treatments to close neatly.

For details on the color and profile combinations available, visit our website, www.northstarwindows.com.

CUSTOM & ARCHITECTURAL

REGULAR SQUARES

PRAIRIE

Accessories

North Star offers a range of accessory options, including wood or vinyl jamb extensions that make a seamless transition from the window frame to your interior finish.

Exterior accessories include brickmold with built in sliding J-channel and nail fins for ease of installation and a weather-tight seal to the outdoors.
